THIS IS UNEVALUATED INFORMATION

25X1

The following is a breakdown according to destination of the cast iron produced during the first quarter of 1953 at VEB EKM Feuerungsbau Greiz-Doelau. The production quota for the quarter had been set at 880 metric tons. The actual production amounted to 895 metric tons, which was a quota fulfillment of 102 percent. The production was delivered as follows. The amounts are in kilograms.

00	Wismut orders	42,162
01	Reparations orders	5,000
02	Indirect reparations orders	122,664
03	Exports to the USSR	200,364
04	Government orders	33,035
05	SAG orders	1,268
06	Direct exports	41,141
07	Interzonal trade	60
08	Internal use	320,775
	Power program	46,268
	Zonal key industries	82,754
	Total	895,491

The slow delivery of coke at the beginning of the quarter and the continuing slow delivery of cast iron scrap were evident hindrances to fulfillment of production which, were however, overcome.
